# APPROVE NEW SEABOARD PLAN

Warfield, Marburg and Others Declare in Favor of Work of Present Management.

WILLIAMS ISSUES CIRCULAR

Attacks President Barr and Says Reorganization Scheme Is Unsatisfactory.

(Special to The Times-Dispatch.)

NEW, YORK, January 19.—The committee, whileh has in charge the plan proposed for the organization of the finances of the Seaboard Air Line Railway Company, has recoved many assurances of support. S. Davis Warried, of Bailtimore, a member of the committee, who is in the city, says there is practically no opposition to the plan, and he states that numbers of the large stockholders have given him assurances of their futuation to deposit their securities with the trust companies that have been selected as depositaries.

William A. Marburg, of Baitimore, strongly commends the plan. Mr. Marburg says: 'I am a great believer in the Scaboard property, and am firmly convinced that when this plan goes through, as I believe it will, the stockholders may look for substantial results from the present management.'

H. Rieman Duval, chairman of the Board of Directors of the American Beet Sugar Company, says he has cartfully read the plan proposed by the committee, and thoroughly approves both the plan of consolidation and the expenditures.

William E. Bush, gf Augusta, Ga, writes to the reorganization committee that the plan impresses him as being fair and equitable.

George W. Watts managing director of the W. Duke Sons & Company, at Durham, N. C., writes to James A. Blair, of this city, as follows: "I thank you for copy of plan of consolidation, etc., Seaboard Air Line, and I congratulate you upon all interests in the board beings in harmony. The plan is fair and equitable, and should be approved by every stockholder as it is by me."

(Special to The Threes-Dispatch.)

BALTIMORE, MD., Jan. 19.—Mr. John
S. Williams was here to-day and gave out
copies of a circular letter sent out by the
banking house of John E. v. dlams and
Sons to Scaboard stockholders, in which
it takes issue with many of the suggestions of the New York banking interobts, which are endeavoring to reorganize
and raise new capital for the property.
The circular also attacks President Barr,
of the Scaboard system, in vigorous and raise new capital 19. The circular also attacks President Barriof the Seaboard system, in vigorous language for statements made to the former management. The circular states that twelve months ago Mr. Barr admitted in writing that not more than \$1,500,000 a year could be advantageously expended on the property for improvements in the next three years, where now it was proposed to spend \$1,500,000 a month for the next flye months.

Stockholders are advised to demand satisfactory answers to various questions, and they are told that they cannot be forced into accepting the plan. Considerable space is also given to a presentation of what are called the fat pickings of the syndicale, the amount being placed at \$3,500,000.

### ADVISED AGAINST IT.

State of Maine Will Not Sue Virginia for the Old Debt.

Virginia for the Old Debt.

An effort was recently made by certain holders of Virginia deferred debt certificates to secure the acceptance by the State of Maine of about \$100,000 of these certificates, with the understanding that the State was to sue the State of Virginia, as was recently done by the State of South Dakota, in suing the State of North Carolina before the Supreme Court, South Dakota winning the case.

Senator Thomas S. Martin states that he was informed of the attempt by Senator Hale and Representative Littlefield, of Maine. It seems that Senator Hale and Mr. Littlefield were consulted by the Maine officials, and that they carnestly advised against such a course, urging the representatives of Maine to take no part in such nefarious proceedings. The advice of the Maine senator was accepted, and the effort wandoned. Senator Hale afterwards told Senators Martin and Danlel of the matter.

FALL RIVER, MASS., Jun. 10.—The FALL RIVER, MASS, Jan. 10.—The thousands of operatives who have been idie for nearly six months, the result of the great textile strike, returned to work to-day. Friction developed at some of the mills, due to the refusal of overseers to give every one his former place immediately. The Textile Council met and empowered the secretary to mrange, a conference with the manufacturers next Saturday for the purpose of adjusting the difficulties. It is recognized that there are not sufficient operatives in the city to operate the mills at their full capacity, and it is felt that to-day's friction will be short-lived. It is not probable the mills will be running in full before the close of the month, although some of them practically equal their normal production.

have wheed out the whole of the Romanous family, was the result of carelessness in leaving a shotted cartridge in the breach of a gun after target practice, the mysterious case is still under the combined investigation of the military and police and the public seems as little inclined as the authorities to accept the published version. The officers and men of the battery have not been arrested, but are confined to barracks, and by the military regulations are so closely under restraint that it is impossible for the culprit or culprits to escape until the responsibility is determined.

It cannot be said definitely whether the affair was an accident or the result of design. The general belief is that a widespread plot did not exist, but evidences are so apparent that the statement attributing the presence of a loaded shell to previous target practice evoked smiles in many quarters. It is pointed out as being highly improbable that a second cartridge could have been inserted for saluting purposes behind the first, and it is certainly a startling collicion of the coulon, it is a strange fact that the since came from the Bourse esplanade, where was stationed the first horse artillery organization of the compire and one of the most incote regiments in the whole Russian service. The two investigations are proceeding independently and both are guarded with the utmost secrecy.

Military experts say indications point to a charge consisting of grape having been inserted surreptitiously in a solution cartridge. If this was the case, probably only one man was involved. Certainly if there was an extensive, deeplaid plot, or if an officer was involved, it was badly executed. It is pointed out that it is hardly probable that an expert artilleryman should have prepared a weak scattering charge, which could hardly carry across the Neva. At the same time an indication of designation is the fact that the gun was laid directly against the imperfal payllon. Had the gun contained a service charge or a regular shell the payllon must infallibly have been destroyed. It is clear, however, that the saluting was done most recklessly, as the flashes of the blank shots from St. Peter and St. Paul fortress showed that the Winter Palace.

LONDON, January 20,—The London papers to-day and their St. Petersburg correspondents take the gravest view of the internal conditions in Russia. The majority express the belief that yesterday's inclonet was a premeditated attempt on the life of Emperor Nicholas, and maintain that the strike is much more a political than an industrial movement. In short, they consider that every sign makes it apparent that the empire is on the verge of a revolution. It is alteged that the St. Petersburg manifacturers have deelded to reject the striker's domands, and that the orthodox priest, Father Gopen, the picturesque figure, who has constituted himself the leader of the strike movement and possesses the men's complete sympathy, threatens to march on Sinday at the head of 100,000 strikers io the Winter Palaco, with a petition for political rights, and that he will refuse to depart until the document is presented to the Emperor.
